Tel: (406) 883-4133

KENMAR MAX 21Y x  
Wt. 2250 lbs.

This is the sire of our group of 5 bulls at the Moiese Test Center which is one of the leading groups at the Center.

Dear Sir:

We are selling three bulls at the Montana Shorthorn Beef Bonus Sale, which will be held at the Missoula Livestock Yards, Missoula on March 31 - also, five bulls at the Moiese Bull Testing Center, Moiese, Montana, which will sell on April 23, 1973.

Our cattle are backed with performance records, and are cattle with bred-in size. If you are in need of Shorthorn bulls this spring, we are sure one of these bulls will fill your needs. We believe that they will not only make good herd sires but also outstanding range bulls.

Sincerely yours,

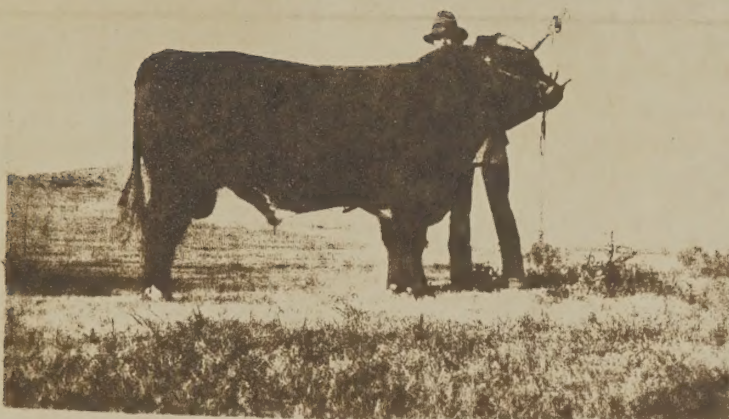

*Glen Vergeront*
